

# Rubber frame for sticky mats

## • Description

Rubber frame for sticky mats

Developed to hold sticky mats on anti-slip floor or in places where sticking to the floor is impossible or it's needed to manipulate with the sticky mats after placement.

Furthermore for places where the mat is crossed by heavy carts, so it doesn't damage the mat.

Frame has 7cm sloping edges around the whole frame with cut off inside for proper insertion of sticky mats without overlap

Frame could be cleaned by general cleaning products.
