Adhesive Mats

Description

Prior to entering cleanrooms or controlled environments, TechWipe mats are specifically designed to capture particulates from feet and wheeled traffic.

Adhesive mats can be used to effectively reduce contamination in high traffic areas. Each removable sheet has 30 or 60 layers and a consistent adhesive coating designed to trap particles and prevent transfer.

Applications

- Cleanrooms and critical entry points into the environment
- Dressing rooms
- Ante rooms.
- Cleanroom construction projects that reduce and capture dust and debris.

Features & Benefits

- Mats are simple to install, use, and care for.
- The contamination is effectively retained by a consistent adhesive coating on each mat layer.
- Each layer is labeled with a number for easy reference.
- Available in 2 sizes and in blue color. 30 or 60 layer mats with flexibility for different door or entry point sizes;
